1.2 Production processing

Administrative boundaries of EBM_2019 were updated according to the National dataset of Administrative boundaries of the Czech Republic in scale 1:10 000. The geometry of changes was generalized in conformance with EBM scale. The positional accuracy is 50 m.

International boundary: was derived from ELF_IB_Regional_v6.gdb.

Inside boundaries: were derived from a Czech National Database in scale 1:200 000 and are identical with administrative boundaries of CZ_EuroRegionalMap_2019.

A number of quality checking routines (topology rules) were applied to ensure a data correctness.
