

National lineage information EuroGeographics country dataset for EuroBoundaryMap 2020

LV - Latvia

1 General Information

1.1 Naming convention and transliteration rules

No additional convention and transliteration information.

Latvian

national	Ā, ā	Č, č	Ē, ē	Ģ, ģ	Ī, ī	Ķ, ķ	Ļ, ļ	Ņ, ņ	Š, š	Ū, ū	Ž, ž
ASCII	A, a	C, c	E, e	G, g	I, i	K, k	L, l	N, n	S, s	U, u	Z, z

1.2 Production processing

No information about production process.

2 Release Information

2.1 Deviation from specification

No deviations from specification.

2.2 National specifics

To construct lines of administrative borders, Cadastre graphical data are used and these data are updated regularly. Coastline of Baltic Sea is changing all the time and is reconstructing regularly. National border is constructed from data of international contracts.

An administrative reform took place on 1st of July 2009. Now in Latvia are two administrative levels. In 1st administrative level are cities and counties, in 2nd administrative level are towns of counties and parishes of counties.

2.3 Update remarks

2.4 Reference date

	Reference date	Remark
Geometry	01.01.2016	
Population figures	01.01.2018	Eurostat

2.5 National administrative hierarchy

Level of administration	Unique structure identifier	Designation of the hierarchy level given in national characters	Designation of the hierarchy level transliterated in ASCII characters	English translation or equivalent of the designation	Significant digits of the SHN code	Number of objects
